How to Survive and Prosper in a World of Exponential Technologies

Machine Learning in Sourcing and Procurement
Keynote session with Allegis Global Solutions.

Creating that Aha Moment: Using Augmented Reality for Procurement Process Training
Sourcing and business leaders have been readily adopting the use of reverse auctions on a worldwide basis. While to the sourcing organization, this process is easy to understand, it can sometimes be difficult to explain to internal clients in a way that makes it real and demonstrates the incredible potential. In this keynote session, the presenters will walk the audience through the identification of the business need and the solution development. Attendees will have the opportunity to experience a demonstration of how augmented reality will be used to engage business units in the use of reverse auctions.

Digital Singularity and Why Humankind is Better Positioned Than Ever to Engineer Solutions in the Digital Age
Avasant will present this keynote session on digital singularity.

Working Council Meetings
SIG Council Meetings on:
- Digital Innovation
- LatAm Alliance
- Process Analysis & Savings Opportunities
- Source-to-Pay Technologies
- Sustainable and Responsible Sourcing
- Third Party Management
- Workforce Sourcing
Outsourcing: The Evolution of a Strategic FM Partnership
With sourcing practitioners in the sourcing department at PwC.

How Uber is Leveraging Sourcing to be a Competitive Advantage
With sourcing practitioners from Uber.

Collaboration or Collusion
Where is the line between collaboration (legal) and collusion (illegal)? This is a topic of much legislation, regulation and common law, mostly in antitrust. For example, a secret collaboration within an oligopoly to raise prices might be collusion violating the antitrust laws. A panel discussion with Kate Vitasek at the University of Tennessee, Lawrence Kane at Boeing, and Brad Peterson at Mayer Brown.

Plus Breakout Sessions with:
Avasant, a leading management-consulting firm providing digital transformation, sourcing advisory and globalization services to Fortune 1000 clients around the world. Past presentations include:
